FACES OF ENGLISH AT HKU, HONG KONG

As "Asia's World City", Hong Kong is a place where 'faces' from all parts of the globe come to work, study, and play together, and HKU is its most international university. It is an ideal location then for this conference which highlights the rich diversity of approaches to understanding English and the range of contexts in which it is taught, studied and used around the world. This conference will bring together academics, researchers, practitioners and research students to share their research and practical ideas on the analysis, description and teaching of English in a city with a rich cultural heritage, stunning natural scenery and a buzzing street and night life. HKU is now linked to the city's underground MTR system so it is easier than ever to whizz about Hong Kong and get in all the sights!
